General Notice

Attention All Students of Sociology department

It has come to the notice of the College authority as intimated by the Hod, Department of Sociology, Birpara College, that a significant number of students of first semester who have been admitted to the second semester are not attending classes regularly in spite of very bad academic performance in the university exams. Moreover, this pattern is repeated by the students of the 4th and the 6th semesters.

Please bear in mind that the affiliating university asks for regular reports pertaining to student attendance, and chronic absenteeism reflects badly on the profile of the academic institution as a whole. So keeping the larger interest of the College in mind, the authority would be compelled to report the names of absentee students after proper verification of Results and Attendance directly to the university authorities.

The teachers of the department do their utmost to make the subject comprehensive to the students, and in addition to academic duties, they have other administrative duties to perform to ensure the smooth running of the College.

Under the circumstances, erring and defaulting students would be served with notice and the same would be sent up to the university for proper and necessary action

Dr Kaustav Chakrabarti
Principal, Birpara College
